[3]

Description:

The Civilian Commercialization Readiness Pilot Program (CCRPP) is an additional funding opportunity available to small businesses, with a primary objective of accelerating the near-term transition of SBIR and STTR funded technologies to infusion and/or commercialization (not an incremental improvement in technology maturation alone). If you've recently won a Phase 2 award from our program, you are likely eligible, so check out this video (and the corresponding presentation) to learn more!
