

[Nancy Mendonca](#) [1]

NASA Deputy ARMD Mission Integration Office (AMIO)

Nancy Mendonca is currently the NASA Deputy in the Aeronautics Research Mission Directorate (ARMD) Mission Integration Office (AMIO). The AMIO integrates ARMD's Advanced Air Mobility (AAM) efforts across the four ARMD Programs and with the AAM community. She served 24 years in the Navy flying H-46 helicopters. Between the Navy and NASA she worked at the Missile Defense Agency on the Marine Corps MRAP Program and at NTIA working on the Federal Strategic Spectrum Plan. She graduated from the U.S. Naval Academy with a Bachelor of Science in Aeronautical Engineering and subsequently earned Master of Science degrees in Aeronautical Engineering and National Security and Strategic Studies. She is also a Certified Public Accountant and has currently prioritized rescuing Great Danes and riding horses over flying helicopters.
