

[Matt McPheeters](#) [1]

MSTATT LLC Chief Technology Officer

Matt McPheeters has 10+ years of experience in biomedical optics and sensing. He is a co-founder and is serving as MSTATT's Chief Technology Officer. He is operating as the architect for its dental diagnostic device and has had a critical role in preparing and submitting SBIR proposals, including the one that MSTATT was awarded from the NSF in January 2020.
